

Thank you

Just a few moments ago we received your care package from Platoon Partners. The MAXIM magazines were the hot ticket item, closely followed by the angels ( I have posted a set above my desk). I have included a picture of the early birds getting the proverbial worm. I have notified all the headquarters logistics 'troopers to get together for a section picture tomorrow; It's a bit difficult getting everyone in the same place as of late...Moving is always the same, a million things to account for in the least amount of time possible.

We have US flags that we are taking on patrols and sending home to folks who have supported us, signed by the Paratroopers from 3-509th. I will be sure to send you the Task Force 3-509th Infantry (Airborne) Battalion, Combat Logistics Cell flag at the commencement of our deployment. You will however, receive pictures of the flag as it makes its rounds throughout Iraq prior to receipt.

Thanks for the continued support!!!

Thanks again.

CPT Toomer

As promised a picture of the Combat Logistics Paratroopers...Well some of us anyway J We are still in the throes of preparing for operations in our new area, so getting everyone in one location at times is difficult. You'll get a picture of the entire section once the tempo slows a bit. The flag you see in the picture is the flag that we will sign and forward to you upon completion of our rotation. It made it's debut today, FOB Kalsu, Babil Province, Iraq.

Hope to hear from you soon,
